REASONS FOR ALLOWANCE

- 1. Applicant's election of Group I, claims 1-9 in the response filed on September 10, 2002 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
- 2. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Canada on June 16, 2000. It is noted, however, that applicant has not filed a certified copy of this foreign application as required by 35 U.S.C. 119(b).
- 3. The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 10-30 to inventions non-elected without traverse (see above). According to MPEP § 821.02, claims 10-30 have been canceled.

4. The following is an examiner's statement of reasons for allowance:

Claims 1-9 are allowable over prior art. The closest related art in the record are Zambrowicz *et al.*, (US Patent No. 6,436,707 B1, priority date: March 27, 1998; Nature, 392, 608-611, April 1998) and Kelly *et al.*, (Molecular Reproduction and development, 56, 113-123, June 2000). These prior art do not teach step (c) of claim 1. These prior art either alone or in combination with the other art in the record does not teach or reasonably suggest a method for selecting a clone of an ES cell which comprises all of the limitations recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
